

Innovative Solutions for Critical Infrastructure

eVigilant

A Converged Security Solutions Company

eVigilant, a Converged Security Solutions (CSS) company, is an established leader in providing innovative, cost-effective, physical security solutions that protect people, assets, and facilities. Founded in 1999, eVigilant safeguards our customers' critical infrastructure by delivering the most advanced security solutions, integration, and world class service.

As a total solutions provider, eVigilant recognizes that there is no typical systems project. Our experts create customized solutions that meet the evolving needs of our customers. We develop turnkey solutions from design to installation. Our commitment to quality has led to the successful completion of over 600 projects in a five-year span.
